Siren Interactive Co-sponsors the Fourth Annual Healthcare Connections Networking Event

Siren Interactive hosted the increasingly popular “Healthcare Connections” networking event from a rooftop deck across from Wrigley field on May 30, 2008.

More invitees registered for the event than ever before. And while a morning of gray skies and scattered rain showers kept some from attending the event, almost 60 healthcare and marketing professionals enjoyed the game and the great food provided by Behind the Ivy.

We would like to thank everyone who attended this year’s Healthcare Connections event,” said VP of Business Development Frieda Hernandez. “And a special thanks to Dan Limbach and PharmaVOICE for co-sponsoring this fun day at the ball park.”
